SUMMARY

Frontend Engineer with 8+ years of hands-on experience building and scaling web applications across banking, payments, and fintech. Expert in React, Next.js, and Vue, with a focus on performance, modular architecture, and seamless user experiences. Proven record delivering production-ready applications end-to-end while modernizing legacy systems into agile, cloud-ready platforms. Passionate about shipping reliable, secure, and intuitive digital products.

EXPERIENCE

- Frontend Engineer | Bazara Technologies

Apr 2024 – Present

- Designed and developed core modules for enterprise ITSM, Core Banking, and Trade Finance platforms using Next.js + React + Tailwind.
- Built a micro-frontend architecture supporting modular deployments across multiple enterprise clients.
- Delivered dynamic dashboards, workflows, and reusable UI libraries using Storybook.
- Mentored engineers, implemented CI/CD pipelines, and maintained 90%+ code test coverage.

- Frontend Engineer | Flutterwave Technology Solutions

May 2021 – Mar 2024

- Built Swap by Flutterwave, a currency-exchange app serving 50K+ users in its first quarter.
- Developed Flutterwave for Business Dashboard modules (Onboarding, Compliance, Analytics) in Nuxt.js, improving sign-ups by 40% and compliance completion by 35%.
- Created component libraries reused across products and optimized API performance (–25% load time).
- Collaborated with backend and design teams to deliver secure, high-performing fintech applications.

- Software Developer | Guaranty Trust Holding Company (GTCO)

Feb 2018 – Apr 2021

- Built workflow automation apps in ProcessMaker integrated with PL/SQL, MSSQL, MySQL.
- Delivered loan processing, onboarding, and approval systems, cutting manual operations by 60%.

- Migrated BPM processes from v2 to v3 and built REST API integrations for inter-department platforms.

- Frontend Designer & Instructor | Oceandigits Technology

Jul 2017 – Oct 2017

- Developed responsive interfaces with HTML/CSS/JavaScript and taught 50+ students frontend best practices.

- IT Support Engineer | Crystal Hills Technologies

Feb 2016 – Jul 2016

- Provided technical support and maintained 99% system uptime for internal infrastructure.

SELECTED PROJECTS
- SeaBaas (Core Banking): Frontend architecture & UI for loan and trade finance modules.
- Manovar Engage (Corporate Banking): Built dashboards, approvals, and bulk-payment interfaces.
- Manovar Connect (ITSM): Developed incident, change, and request modules with BPMN workflows.
- Swap by Flutterwave: Currency-exchange platform with real-time API integration and FX conversion.

EDUCATION
B.Sc. Computer Science, University of Ilorin - Nov 2014

SKILLS
Languages / Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, Vue, Nuxt.js, Node.js, Nest JS
UI / Styling: Tailwind CSS, Shadcn/UI , SCSS, Figma Integration
Architecture: Micro-frontends, Module Federation, Monorepos (Turborepo), API Integration
Tools: Git, Vite, Webpack, Jest, CI/CD (GitHub Actions), Docker
Soft Skills: Mentorship, Agile Delivery, Cross-functional Collaboration, Documentation, Stakeholder Management
